## OBJECTIVE

---

Senior Software Engineer with 1.11+ years of hands-on experience designing, implementing, and maintaining complex software solutions. Proficient in the Software Development Lifecycle, React.js, .NET, Java, MySQL, Python, GenAI, HTML, and CSS. Passionate about emerging technologies and continually improving skills. Looking for full-time opportunities to contribute more to innovative projects.

## EDUCATION

---

**Bachelor of Technology (B. Tech) – Electronics and Telecommunication Engineering**, Government College of Engineering Jalgaon  
Aug 2018 – June 2022

## SKILLS

---

**Technical Skills :-** React, HTML, CSS, .NET, SQL, JavaScript, Python, GenAI, Git

**Soft Skills :-** Agile Scrum methodology, UI/UX design, Software Development Life Cycle (SDLC)

## EXPERIENCE

---

**Senior Software Engineer**  
Capgemini

Dec 2022 – Present  
*Mumbai, India*

- Designed and developed web applications using React.js, HTML, and JavaScript, ensuring UI-friendly and responsive designs.
- Created Generative AI solutions using Python's Streamlit framework, including Proof of Concepts (POCs).
- Collaborated with teams using Git for version control, ensuring seamless code management.
- Worked within an Agile Scrum environment to deliver software solutions on time.

## PROJECTS

---

**Generative AI POC:-** Implemented a Proof of Concept (POC) using **GenAI** to demonstrate how artificial intelligence can be applied in software solutions, leveraging Python's Streamlit framework.

**Web App Development :-** Developed responsive web applications using React.js, HTML, CSS, and JavaScript. Ensured seamless user experience and mobile compatibility.

## AWARDS

---

**GEM Award :-** Received GEM award for Distinguished Contributor to the Client – 2nd highest award for employees at Capgemini.

**WOW Award :-** Recognized with the WOW award *twice* for the best performance in the project - the third highest award for employees of Capgemini.

## EXTRA-CURRICULAR ACTIVITIES

---

- Participate in hackathons to solve real-world problems under time pressure and collaborate with like-minded individuals.
- Challenge yourself with coding challenges and competitions to improve your problem-solving and algorithmic thinking skills.

## LEADERSHIP

---

- Serves as short team lead on few occasions as well as long term senior developer.
